Costo per ogni piano 30 Pc € 3.000

- 1 Router Cisco WS-C2960S-48TS-S € 3.700
- 1 AP Catalyst 9120AX Series 5000 € 1.000
- 1 Switch Cisco Stackable Managed SG350X-48-K9 Switch € 530

1 Cavo LAN € 150,00

Totale costi per Palazzo = € 140.920,00

Cavo LAN € 150,00

Totale complessivo = € 281.990,00

Compenso progettazione e installazione € 3.500,00

Cavo LAN 30m

Per ogni piano dei palazzi è stato installato e configurato:

- 1 AP Catalyst 9120AX Series 5000
- 1 Switch Cisco Stackable Managed SG350X-48-K9 Switch
- 1 Router Cisco WS-C2960S-48TS-S

Relazione:

Per far comunicarei 2 palazzi ho preferito utilizzare un cavo LAN, invece di una connessione Wireless esterna, per eventuali perdite di dati dato da instabilità causata da eventi atmoferici.

Ad ogni piano è stato assegnato un indirizzo IP diverso

L'assegnazione di IP diversi è assegnata per evitare facili attacchi esterni.
